

**IN THE CLAIMS:***Sub F11*

Claims 1-16 (Withdrawn)

Claim 17. (Previously cancelled)

*2*

*1* Claim 18. (Previously amended) A satellite ready building as recited in claim *21* wherein said connector comprises a universal connector.

*3*

*a1* Claim 19. (Original) A satellite ready building as recited in claim *18* wherein said universal connector comprises a phone jack, a cable TV jack, and a satellite jack.

*4*

Claim 20. (Original) A satellite ready building as recited in claim *19* wherein said universal connector comprises a LAN jack.

*1*

Claim 21. (Previously Amended) A satellite ready building comprising:

a plurality of studs;

satellite wires positioned adjacent to said studs having a first termination and a second termination, said first termination positioned outside the building;

a connector coupled to said second termination of said satellite wire;

a drywall layer coupled to said studs to substantially enclose the satellite wires therein; and

a radome enclosing said first termination.

5  
Claim 22. (Original) A satellite ready building as recited in claim 21 further comprising a satellite antenna positioned within said radome.

6  
Claim 23. (Original) A satellite ready building as recited in claim 22 where radome is low-profile sized to contain said satellite antenna therein.

7  
Claim 24. (Original) A satellite ready building as recited in claim 22 wherein said radome has a color to substantially match a roof color.

8  
Claim 25. (Original) A satellite ready building as recited in claim 22 wherein said antenna comprises a flat antenna.

9  
Claim 26. (Original) A satellite ready building as recited in claim 22 further comprising a remote control for positioning said antenna.

10  
Claim 27. (Original) A satellite ready building as recited in claim 22 wherein said antenna comprises a phase array antenna.

11  
Claim 28. (Original) A satellite ready building as recited in claim 22 wherein said antenna comprises a variable-inclination-continuous-transverse-stub.

12  
Claim 29. (Currently Amended) A multiple unit building comprising:  
satellite wires having a first termination, a second termination, a third termination and a fourth termination, said first termination and said third termination positioned outside the building;

a first connector coupled to said second termination;

a second connector coupled to said fourth termination; and

a first radome enclosing said first termination; and

a second radome enclosing said third termination.

cont. F1  
13  
Claim 30. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said second termination is positioned in a first unit of the multiple unit building and said fourth termination is positioned in a second unit of the multiple unit building.

cont. C1  
14  
Claim 31. (Currently Amended) A multiple-unit building as recited in claim 29 wherein the first radome and the second radome are coextensive.

15  
Claim 32. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said first and second connector comprise a universal connector.

16  
Claim 33. (Currently Amended) A multiple-unit building as recited in claim 32 wherein said universal connector comprises a phone jack, a cable TV jack, and a satellite TV jack.

17  
Claim 34. (Currently Amended) A multiple-unit building as recited in claim 32 wherein said universal connector comprises a LAN jack.

<sup>18</sup>  
Claim <sup>12</sup>35. (Currently Amended) A multiple-unit building as recited in claim <sup>12</sup>32 further comprising a first satellite antenna and a second satellite antenna positioned respectively within said first radome and said second radome.

*cont. F1*  
<sup>19</sup>  
Claim <sup>18</sup>36. (Currently Amended) A multiple-unit building as recited in claim <sup>18</sup>35 wherein said first satellite antenna and said second satellite antenna comprise a flat antenna.

*cont. E1*  
<sup>20</sup>  
Claim <sup>18</sup>37. (Currently Amended) A multiple-unit building as recited in claim <sup>18</sup>35 wherein said first satellite antenna and said second satellite antenna comprise a phase array antenna.

<sup>21</sup>  
Claim <sup>18</sup>38. (Currently Amended) A multiple-unit building as recited in claim <sup>18</sup>35 wherein said first satellite antenna and said second satellite antenna comprise a variable-inclination-continuous-transverse-stub.

<sup>22</sup>  
Claim <sup>12</sup>39. (Currently Amended) A multiple-unit building as recited in claim <sup>12</sup>29 wherein said first radome and said second radome are low-profile.

<sup>23</sup>  
Claim <sup>12</sup>40. (Currently Amended) A multiple-unit building as recited in claim <sup>12</sup>29 wherein said first radome and said second radome have a color that substantially matches a roof color.

<sup>24</sup>  
Claim ~~41~~. (Currently Amended) A multiple-unit building as recited  
<sup>12</sup>  
in claim ~~29~~ wherein said first radome and said second radome are contiguous with a  
mounting surface.

<sup>25</sup>  
Claim ~~42~~. (Currently Amended) A multiple-unit building as recited  
<sup>24</sup>  
in claim ~~41~~ wherein the mounting surface is a roof.

<sup>26</sup>  
Claim ~~43~~. (Currently Amended) A multiple-unit building as recited in  
<sup>24</sup>  
claim ~~41~~ wherein the mounting surface is siding.

<sup>27</sup>  
Claim ~~44~~. (Previously Added) A method of forming a multiple unit  
satellite ready building comprising the steps of:

installing satellite wire within walls of the building;

installing a radome on the building;

terminating the satellite wire to form a first termination outside the  
building within the radome;

terminating the satellite wire in a first unit of the building to form a  
second termination;

terminating the satellite wire to form a third termination outside the  
building within the radome;

terminating the satellite wire in a second unit of the building to form a  
fourth termination; and

coupling the satellite wires to satellite jacks.

<sup>29</sup>  
Claim ~~45~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> wherein terminating the satellite wire to form a first termination outside the building within the radome and terminating the satellite wire to form a third termination outside the building within the radome comprises:

terminating the satellite wire to form the first termination outside the building within a first radome; and

terminating the satellite wire to form the third termination outside the building within a second radome.

<sup>29</sup>  
Claim ~~46~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> wherein the radome is low-profile sized to contain a satellite antenna therein and is colored to match the surrounding roof material.

<sup>30</sup>  
Claim ~~47~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> wherein the radome has a color to substantially match a roof color.

<sup>31</sup>  
Claim ~~48~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> further comprising the step of installing a satellite antenna in the radome and coupling the satellite wire to the antenna.

<sup>32</sup>  
Claim ~~49~~. (Previously Added) A method as recited in claim ~~48~~<sup>31</sup> wherein the satellite antenna is a low profile antenna.

<sup>33</sup>  
Claim ~~50~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> wherein said step of terminating the satellite wire to form a first termination comprises the step of terminating the satellite wire adjacent to a roof of the building.

<sup>34</sup>  
Claim ~~51~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> wherein said step of terminating the satellite wire to form a first termination comprises the step of terminating the satellite wire adjacent to a siding of the building.

<sup>35</sup>  
Claim ~~52~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> further comprising the step of coupling a television to said jack.

<sup>36</sup>  
Claim ~~53~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> further comprising the step of coupling a personal computer to said jack.

<sup>37</sup>  
Claim ~~54~~. (Previously Added) A method as recited in claim ~~44~~<sup>27</sup> wherein the step of installing the radome comprises installing the radome contiguous with a surface of the building.

<sup>38</sup>  
Claim ~~55~~. (Previously Added) A method as recited in claim ~~54~~<sup>37</sup> wherein the surface comprises a roof.

<sup>39</sup>  
Claim ~~56~~. (Previously Added) A method as recited in claim ~~54~~<sup>37</sup> wherein the surface comprises a side.

40  
Claim 57. (Previously Added) A multiple unit satellite ready building comprising:

satellite wires having a first termination, a second termination a third termination and a fourth termination, said first termination and said third termination positioned outside the building, said satellite wires for distributing satellite signals therethrough;

cont. F1  
a first connector coupled to said second termination within a first unit of the building;

cont. C1  
a second connector coupled to said fourth termination within a second unit of the building; and

a first radome disposed on the building contiguously with a surface, said first radome enclosing said first termination; and

a second radome disposed on the building contiguously with a surface, said second radome enclosing said third termination.

41  
Claim 58. (Currently Amended) A multiple-unit satellite ready building as recited in claim 57<sup>40</sup> comprising wherein the satellite signals comprise computer signals and television signals.

42  
Claim 59. (Currently Amended) A multiple-unit satellite ready building as recited in claim 57<sup>40</sup> wherein said first and second connector comprise a universal connector.

43  
Claim 60. (Currently Amended) A multiple-unit satellite ready building  
as recited in claim 59<sup>42</sup> wherein said universal connector comprises a phone jack, a cable  
TV jack, and a satellite TV jack.

44  
Claim 61. (Currently Amended) A multiple-unit satellite ready building  
as recited in claim 59<sup>42</sup> wherein said universal connector comprises a LAN jack.

45  
Claim 62. (Currently Amended) A multiple-unit satellite ready building  
as recited in claim 57<sup>40</sup> further comprising a first satellite antenna and a second satellite  
antenna positioned respectively within said first radome and said second radome.

46  
Claim 63. (Currently Amended) A multiple-unit satellite ready building  
as recited in claim 62<sup>45</sup> wherein said first satellite antenna and said second satellite  
antenna comprise a flat antenna.

47  
Claim 64. (Currently Amended) A multiple-unit satellite ready building  
as recited in claim 62<sup>45</sup> wherein said first satellite antenna and said second satellite  
antenna comprise a phase array antenna.

48  
Claim 65. (Currently Amended) A multiple-unit satellite ready building  
as recited in claim 62<sup>45</sup> wherein said first satellite antenna and said second satellite  
antenna comprise a variable-inclination-continuous-transverse-stub.

49  
40  
Claim 66. (Currently Amended) A multiple-unit satellite ready building  
as recited in claim 57 wherein said first radome and said second radome have a color to  
substantially match a surface color.
